A LEGACY OF PROTECTION. A FUTURE OF POSSIBILITIES.

Our journey began more than 50 years ago with a simple ambition: to create helmets that give riders the confidence to go further. From humble beginnings in a small garage in India, we have grown into a global force in helmet manufacturing — driven by a passion for innovation, uncompromising quality and a deep understanding of what riders demand.
SMK is building on this legacy with a clear vision for the future — expanding our horizons, accelerating innovation and bringing new possibilities to riders around the world.

We are evolving from a premium helmet brand into a broader rider safety and riding lifestyle platform, expanding our offering through riding gear, communication systems, licensed editions and the development of smart-helmet technologies. Every new product is guided by the same commitment that has defined us for generations: delivering outstanding safety, advanced features, exceptional comfort and unmistakable style.

Innovation is at the heart of this journey. Our advanced in-house design and development capabilities, extensive manufacturing expertise and dedicated testing facilities give us control across the entire product cycle — from the first idea and tooling through manufacturing and rigorous testing. This depth of expertise allows us to continuously raise the bar and bring new technologies and designs to riders faster.

Our global presence continues to grow, with SMK helmets now reaching riders in more than 70 countries around the world. Our entry into the FIM Road to MotoGP™ ecosystem through the Moto4 Latin America Cup marks an exciting new chapter in SMK's racing journey. Racing is an integral part of our DNA, pushing us to continually challenge ourselves in the pursuit of performance, protection and innovation. This is just the beginning — with an exciting racing roadmap ahead and many more developments to come as we strengthen SMK's presence on the international racing stage.

But our greatest inspiration remains the rider.

Whether you're chasing a lap time, exploring an open road, commuting through the city or simply enjoying the freedom of two wheels, SMK is committed to being part of your journey. We are designing for a new generation of riders who expect more — stronger safety, smarter technology, distinctive design and uncompromising quality.

With more than five decades of manufacturing expertise behind us and an exciting future ahead, SMK is not simply following the evolution of riding — we are helping shape it.

We invite you to ride with us into the future.

SMK

The SMK Titan Race is engineered for riders who demand track-ready performance, safety, and speed. Built with Premium Carbon Composite Fiber Technology (PCFT), it delivers exceptional strength in a light, aerodynamic profile — every gram shaved to keep you fast, lap after lap. Its aggressive design, race-ready shield with tear-off pins, and advanced ventilation ensure bold style, superior protection, and cool comfort at full pace.

Purpose-built for the circuit, the TITAN Race pairs a secure Double-D ring retention system for a competition-grade fit with super-soft liners and a plush inner lining. Its streamlined, minimal-weight shell and snug fit deliver a quiet, focused ride — making the TITAN Race your ultimate racing companion.

The SMK Titan Carbon is crafted for riders who demand premium performance, safety, and comfort. Built with Premium Carbon Composite Fiber Technology (PCFT), it combines strength with a lightweight aerodynamic profile. Its aggressive design, wide Pinlock®70 fitted shield, and advanced ventilation ensure bold style, superior protection, and cool comfort.

Equipped with a quick-lock outer shield, inner sun shield, and super-soft liners, it offers convenience and comfort. Its plush inner liner, wind stop, and snug fit provide a quiet ride. More than protection, the TITAN CARBON is your ultimate riding companion.

SMK
SMK

Introducing the SMK Cygnus, our latest flip-back helmet built for riders who demand versatility, comfort, and safety.

Double P/J certified, it meets the highest standards for both full-face and open-face use. The 180° rotating chin guard allows effortless switching between styles, while the wide anti-scratch shield, Pinlock®70 ready shield, and an inner sun shield ensure clear vision in all conditions. Multi-density EPS delivers superior impact absorption while the advanced airflow provides excellent ventilation. The hypoallergenic, removable, washable head liner is complemented by built-in speaker pockets.

Safety features include an emergency release system and full-metal buckle, making the Cygnus ideal for touring or daily commuting.

SMK

The SMK Gullwing is a versatile flip-up helmet crafted for tourers and daily commuters. Its dynamic shell, multi-density EPS, and plush liners provide comfort and safety. With double P/J homologation, it can function as both an open-face and full-face helmet.

The helmet's advanced ventilation system, with top and mouth intakes, ensures airflow and comfort.

For enhanced usability, it comes with an inner sun shield, one touch release outer shield mechanism, wind stop, and Pinlock®70 readiness. Available in bold solids and high-visibility graphics, the GULLWING blends safety, comfort, and bold style in one complete package.

SMK

The SMK Ares is a dual sport helmet that blends style, safety, and versatility for on and off-road adventures. It features an extendable sun peak, optically correct extra-wide shield, and built-in sun shield for maximum flexibility and visibility. The quick-release shield is Pinlock®70 ready for clear, fog-free vision, while the removable, moisture-wicking liner keeps riders cool and comfortable. Eyeglass-friendly fit, extended cheek padding, and integrated wind stops ensure comfort and stability. A multi-density EPS enhances impact absorption, and efficient ventilation channels complete its bold, adventure-ready design.

Offered in two shell sizes for a precise fit, it provides lasting comfort on long rides. Its sleek profile, smart graphics, and bold solid colors strike the perfect balance between style and practicality.

Equipped with a wide anti-scratch shield, the GTJ ensures clear visibility and safety, while the inner sun shield can be operated with ease for changing light conditions. A well-designed ventilation system with multiple air vents and rear exhausts maintains steady airflow, making the GTJ a dependable choice for both daily commuting and long-distance touring.

The SMK Patriot delivers the pure, open-air feel of a classic half helmet without compromise. Built on a lightweight multi-density EPS shell, it pairs a drop-down smoke sun shield with an included clear shield — so one helmet carries you from bright midday roads to night rides. Every Patriot is DOT (FMVSS 218) approved and rigorously tested for confidence on every mile.

Comfort runs deep, with a removable, washable moisture-wicking liner, a Flexifit dial adjuster and quick-release ratchet strap for a locked-in fit, and integrated speaker pockets for your comms. Three shell sizes span a full XS–4XL range, and it's available in three solid finishes or the bold Eagle graphic — backed by a 2-year warranty.

The SMK Terrain Youth Goggles are designed for off-road enthusiasts, delivering durability, comfort, and performance. With a rigid injection-molded frame and curved lens, Terrain provides a wide, clear field of vision. Advanced ventilation prevents fogging, while triple-layered foam ensures a secure, sweat-absorbing fit.

A changeable, adjustable woven strap with triple silicone waves keeps the goggles firmly in place, and the two-pin tear-off system adds convenience in muddy or dusty conditions. Certified to EN1938:2010 standards and available in three colors, SMK Terrain Youth Goggles perfectly complement the SMK Allterra Off-Road Helmet.

PREMIUM HELMET BAG

MSRP ($) : 49.99

NEW LAUNCH

- 35L CAPACITY
- TRAVEL-FRIENDLY DIMENSIONS
- LIGHTWEIGHT CONSTRUCTION
- DURABLE POLYESTER EXTERIOR
- SOFT MICROFIBER LINING
- 2MM PROTECTIVE PADDING
- COMFORTABLE PADDED HANDLE
- CONVENIENT DUAL POCKETS
- GRIP-TEXTURED BASE
- COMPATIBLE WITH ALL SMK HELMETS

Durable, everyday protection for your helmet in a lightweight 35-liter bag. The rugged 280 GSM polyester exterior resists dust, moisture, and wear, while the soft microfiber lining — across the base, sides, and lid — guards against scratches. Lightweight, it's easy to grab and go for track days, commutes, or road trips.

The roomy 17 x 12.5 x 10 inch interior fits full-face and modular helmets, including all SMK models, plus gloves and small essentials. Dual zippers and a padded carrying handle make access and transport effortless, and a zippered side pocket, stretch mesh pocket, and grip-textured base round out the practical details.

Premium Composite Carbon Fiber Technology

Energy Impact Resistant Thermoplastic

1 Shell - 2 Shells - 3 Shells

Multi Density EPS:
Provides maximum all-round head protection during any unfortunate impact

Top Air Vents:
Provides rider with fresh air while riding, aiding rider comfort

Chin Air Vents:
Air intakes on the chinguard of the helmet for increased air flow on the rider's face while riding, aiding to rider's comfort

Hot Air Exhaust:
Helps in directing hot air within the helmet outwards for rider comfort during extended usage

Channeled Exhausts:
Movement of air through the liners provides maximum comfort to the rider during extended usage

Scratch Resistant Shield:
Protective layer coated for preventing scratches on shield during regular use, maintaining visibility and safety

Quick Release Shield:
Convenient to the rider for easier changing shields when required

Pinlock®70 Fitted:
Patented Pinlock technology for prevention of shield fogging during ride in cold and humid weather

Pinlock®70 Ready:
Patented Pinlock technology for prevention of shield fogging during ride in cold and humid weather

Dual Shield System:
Retractable shield, reduces the sun's glare without replacing shields providing safety and comfort while riding

Breath Deflector:
Deflects moist air, due to breath, away from shield, maintaining rider visibility

Wind Protector:
Protects the rider from cold air while riding, helping the rider's comfort and reducing noise

Micrometric Chin Strap:
For maximum ease of releasing the strap under the chin

Double D Ring Chin Strap:
Secure & adjustable closure system for chin strap providing enhanced safety

Padded Comfort Chinstrap
Prevents breakage of strap, providing maximum protection during any unfortunate impact

Removable & Washable Liner:
Ability to remove and clean the liners for maintaining freshness over time

Moisture Management Antistatic Fabric:
Absorbs and evaporates sweat faster from rider's face, increasing comfort during extended usage

Breathable Liner:
Breathability causes more air flow inside the helmet liner and as a result faster evaporation of sweat in the helmet liner

ECE 22.06 Certified

DOT CERTIFIED

P/J Certified:
Dual certification of the helmet providing maximum safety while using the helmet as an open face or full face helmet

Emergency removable cheek pads:
In the event of any unfortunate incident, cheekpads can be removed quickly for easy and safe removal of helmet, protecting rider from further injury

Hypoallergenic Liner:
Protects rider from allergies or infections arising from continuous contact with damp helmet liners due to extended riding or on hot/rainy days

Speaker Pockets:
Small enclosure underneath the cheekpad to hold speakers and provide convenience

Eye Glass Easyfit:
Securely holds eyeglasses while riding

Anti-mist Shield Position:
Optimal placement of the shield to prevent fogging

Shield Lock'n' release System:
Secures the shield in place during riding and enhances safety

Aerodynamic Spoiler:
Designed to improve aerodynamics and reduce drag

Enhanced Airflow System:
Provides enhanced cooling & ventilation during long rides

One Touch Quick Release Shield:
Fast & effortless shield removal/installation

Injection Molded Frame:
Strong single-piece frame designed for durability.

Triple-Silicone Wave Strap Design:
Silicone grip pattern on the strap keeps goggles firmly in place on the helmet and prevent slipping.

Curved Lens:
Curved lens provides wider, distortion-free vision.

Dual-Flow Ventilation :
Top and bottom vents allow smooth air circulation to reduce fogging and keep rider cool.

Triple Layer Moisture-Wicking Foam :
Multi-layer foam absorbs sweat and moisture, keeping rider's face dry.

Two-Pin Tear-Off Compatibility :
Allows tear-off films to be securely attached for fast, on-the-go lens clearing during racing or off-roading.

EN1938:2010 Certified :
European safety standard for rider eye safety and protection.

Adjustable and Replaceable Strap:
Easily adjustable for a secure fit and fully replaceable

Scratch-Resistant Polycarbonate Lens:
Hard-coated lens prevents scratches during regular use, provides a clear view.

Side-Mounted Outriggers :
Side extensions on goggles that hold tear-offs and evenly distribute strap pressure for a secure, comfortable fit.

Removable and Replaceable Lens :
Allows quick lens swaps and easy replacement.

UV-Resistant Lens:
Protects rider's eyes from harmful ultraviolet rays.

Wide Field of View:
Enhances peripheral vision for greater safety and riding awareness

Open Mesh & Group Mesh:
Connects upto 24 riders via dynamic mesh network, line-of-sight range upto 2000m

AI Noise Cancellation:
Uses DSP + CVC + AI technology to cut background noise for crystal-clear calls.

HD Speaker:
Powerful 40mm speaker delivers rich, HD sound for every call.

FM Radio:
Plays built-in FM radio on the go.

Dual-Device Pairing:
Stays connected to your phone and an external GPS device simultaneously.

Bluetooth® Intercom:
Pairs one-to-one with other bluetooth intercom brands.

Voice Assistant:
Activates your smartphone's voice assistant with a long press of the knob.

Auto Answer:
Answers calls automatically or manually, as you prefer.

Gloves Friendly Knob Control:
Easy, intuitive controls without removing your gloves.

1000mAh Battery:
Delivers extended power for longer rides and uninterrupted connectivity.

IP67 Water Resistant:
Keeps your device safe from water and dust.

35L Capacity:
Offers ample room for your helmet and essential riding gear.

Travel-Friendly Dimensions:
Measures 17 x 12.5 x 10 inches for convenient storage and carrying.

Lightweight Construction:
Weighs just 770 grams for effortless portability.

Durable Polyester Exterior :
Built to withstand regular travel and everyday use.

Soft Microfiber Lining:
Gently protects the helmet surface from scratches and scuffs.

2 mm Protective Padding:
Provides added cushioning against minor bumps during transport.

Comfortable Padded Handle:
Ensures a secure and comfortable grip while carrying.

Convenient Dual Pockets:
Includes a zippered side pocket and stretch mesh pocket for easy organization.

Grip-Textured Base:
Provides improved stability and helps prevent unwanted slipping.

Compatible with All SMK Helmets:
Designed to comfortably accommodate every SMK helmet model.
